The goal of the Department of General Services (DGS) is to ensure the delivery of new or modernized, well-equipped, well-maintained, safe and secure buildings and facilities for the benefit of District residents and employees. Further, the agency's mission is to promote the efficient and effective management of the District's real estate investments and interests through strategic portfolio management, construction and facilities management. To this end, DGS will incorporate best management practices from both the public and private sectors where useful.

Summary of Services

The Department of General Services (DGS) carries out a broad range of real estate management functions. In addition to managing capital improvement and construction program for a variety of District government agencies, DGS also executes real property acquisitions by purchase or lease; disposes of property through sale, lease or other authorized method; manages space in buildings and adjacent areas; and provides building management services for facilities owned or operated by the District. Among the services provided are engineering, custodial, security, energy conservation, utility management, general maintenance, inspection, planning, capital repairs and improvement. In all of its endeavors, DGS is dedicated to the following:

- A Focused Dedication to Achieving Efficiency in Operations;
- A Commitment to Quality in Design and Execution;
- An Emphasis on Excellence in Service and Maintenance;
- A Promise to Deliver Secure and Safe Places of Work for District Employees; and
- A Promise to Deliver Aggressive and Attentive Management of the District's Resources.

The agency's FY 2014 proposed budget is presented in the following tables:

Division Description

The Department of General Services operates through the following 8 divisions:

Asset Management – plans and manages the District’s real estate to achieve its highest and best use. This division engages in activities such as lease administration, allocation of owned and leased properties to District agencies, property acquisition and disposition, fixed cost forecasting for District facilities, and rent collection from entities leasing District-owned property.

This division contains the following 5 activities:

- **Lease Management (DGS Realty)** – provides space location and management services for District agencies in both owned and leased buildings;
- **Utility and Fuel Management** – provides management services in the distribution and allocation utilities and fuel;
- **Public Education Realty** – provides asset management services to public and private entities, allowing access and utilization of school building and grounds by entering into use agreements, licenses, and lease agreements;
- **Swing Space** – provides support for services associated with moving agencies from one space to another; and
- **Eastern Market** – provides for the operations and management of Eastern Market through the revenue-generating Eastern Market Enterprise Fund.

Facility Operations – is responsible for the day-to-day operation of many District-owned properties, vacant lots, and homeless shelters, and acts as a liaison for operating purposes between agencies and landlords in leased buildings by maintaining building assets and equipment; performing various repairs and non-structural improvements; and providing janitorial, trash and recycling pickup, postal, and engineering services.

The division contains the following 9 activities:

- **Postal Services** – provides certain postal services to various District agencies in owned property;
- **Facilities/Occupancy** – includes costs associated with operating DGS-managed District buildings. Specifically, Facilities/Occupancy is responsible for elevator and fire alarm maintenance, landscape, air quality, pest control, HVAC and electrical repairs and maintenance, water treatment, salaries for these services, and other related building services contracts;
- **Parking** – provides parking space allocation services and parking revenue monitoring services to the District;
- **RFK/Armory** – provides facilities and security services for Robert F. Kennedy Memorial Stadium and the District of Columbia Armory (non-military portion) based on a Memorandum of Agreement with the District of Columbia Washington Convention and Sports Authority;
- **Janitorial Services** – includes costs associated with operating DGS-managed District buildings;
- **Facilities-Public Education** – includes facility maintenance and repair costs for the District of Columbia Public Schools (DCPS);
- **Facilities-Parks and Recreation** – includes facility maintenance and repair costs for parks and recreation centers under the Department of Parks and Recreation (DPR);
- **Facilities-MPD** – includes facility maintenance and repair costs for Metropolitan Police Department (MPD) buildings; and
- **Facilities-FEMS** – includes facility maintenance and repair costs for Fire and Emergency Medical Services (FEMS) Department buildings.

Protective Services – includes the budget for the Protective Service Police Department (PSPD). PSPD provides 24-hour security and law enforcement services to government operations by protecting employees, resources, and facilities at District-owned and leased properties. Security includes patrol operations, contract security guard management, and electronic access control and security systems. PSPD also assists District and federal agencies during special events and criminal investigations.

Construction Services – implements and manages the public building needs through the Capital Improvements Plan (CIP) for most District government agencies. The CIP outlines agencies’ capital needs, including the rehabilitation of existing properties and construction of new facilities. This division ensures the timely and cost-effective delivery of superior quality engineering and design, construction, as well as a variety of other technical services on all relevant capital development projects in the CIP.

This division contains the following 2 activities:

- **DGS Construction Services** – houses the operating budget costs of the division including non-capital eligible positions and administrative costs; and
- **Public Education Construction Services** – houses the operating budget cost of the Public Education activity including non-capital eligible positions and administrative costs.

Contracting and Procurement – provides service and support to DGS (and other agencies as needed) in procuring goods and services that fall into the following categories: construction, architecture, and engineering; facilities maintenance and operation; real estate asset management (including leasing and auditing); and utility contracts and security. Additionally, Contracting and Procurement is responsible for vertical construction procurements for any District agency without independent contracting authority.

This division contains the following 2 activities:

- **Contracting and Procurement Services** – holds the operating budget costs of the division including non-capital eligible positions and administrative costs; and
- **Public Education Contracting and Procurement Services** – holds the budget for the employees and administrative costs related to Public Education contracting and procurement.

Energy – contains the forecasted expenditures for utility and energy commodities purchased by DGS: fuel, natural gas, electricity, steam, and water.

This division contains the following 5 activities:

- **Auto Fuel** – includes forecasted automobile and heating fuel expenditures. The District purchases four types of fuel - Oil, Unleaded, E85 Ethanol, and Diesel Oil - that are used to heat facilities, fuel generators, and fuel vehicles;
- **Natural Gas** – includes forecasted natural gas expenditures;
- **Electricity** – includes forecasted electricity expenditures;
- **Steam** – includes forecasted steam expenditures; and
- **Water** – includes forecasted water and sewer expenditures.

Rent: In-Lease – includes the budget for in-leasing space, which is the cost of leasing non-District government-owned buildings. Rent is comprised of four individual components: base rent, operating expenses, real estate tax, and parking. Each one of these four charges is unique to the terms and conditions of the lease agreement with each landlord.

Agency Management – provides for administrative support and the required tools to achieve operational and programmatic results. This division is standard for all agencies using performance-based budgeting.

Division Structure Change

The Department of General Services has no division structure changes in the FY 2014 proposed budget.

FY 2014 Proposed Budget Changes

The Department of General Services' (DGS) proposed FY 2014 gross budget is \$394,937,969, which represents a 1.7 percent increase over its FY 2013 approved gross budget of \$388,442,860. The budget is comprised of \$260,031,598 in Local funds, \$6,129,000 in Special Purpose Revenue funds, and \$128,777,371 in Intra-District funds.

Current Services Funding Level

The Current Services Funding Level (CSFL) is a Local funds ONLY representation of the true cost of operating District agencies, before consideration of policy decisions. The CSFL reflects changes from the FY 2013 approved budget across multiple programs, and it estimates how much it would cost an agency to continue its current programs and operations into the following fiscal year. The initial adjustments in the budget proposal represent changes that should be compared to the FY 2014 CSFL budget and not necessarily changes made to the FY 2013 Local funds budget. The FY 2014 CSFL adjustments to the FY 2013 Local funds budget are described in table 5 of this agency's budget chapter. Please see the CSFL Development section within Volume 1: Executive Summary for more information regarding the methodology used and components that comprise the CSFL.

DGS' FY 2014 CSFL budget is \$283,190,443, which represents a \$38,852,205, or 15.9 percent, increase over the FY 2013 approved Local funds budget of \$244,338,238.

Major CSFL Cost Drivers

The FY 2014 CSFL calculated for DGS included an adjustment entry that is not described in detail on table 5. This adjustment was made for an increase of \$401,940 in personal services to account for the Fringe Benefit growth rate adjustment of 4.2 percent year-over-year growth; and \$38,450,264 in nonpersonal services, which is comprised of \$1,861,294 based on the Consumer Price Index factor of 2.4 percent and \$36,588,970 for the Fixed Cost Inflation factor derived from the DGS' forecast of centralized fixed costs. During the development of the CSFL, some adjustments such as these were categorized as "other adjustments".

Agency Budget Submission

Increase: In an effort to continue managing the utilities and maintenance of District properties, DGS proposed the following budget: In Local funds, Contractual Services was increased by \$10,511,842 due to consolidated maintenance contracts. In Other Services and Charges the proposed budget is increased by \$1,956,015, mainly in Facilities and Security, based on program spending plans. DGS also proposed an increase of \$245,881 to fund estimated salary step increases and Fringe Benefit costs.

Decrease: In Local Funds, DGS projects savings of \$9,629,645 in Energy fixed costs by adopting initiatives to reduce consumption. Similarly, savings of \$2,378,005 are projected through adjustments to right size the budget in transitioning the costs of personal services of facilities into DGS. Proposed fixed costs for rent are decreased by \$534,539 to reflect the conversion of some leased properties to District-owned. The agency also proposes to reduce the budget for Equipment by \$171,549, mainly in Facilities and Security, based on program spending plans.

In Special Purpose Revenue funds, the proposed budget was decreased by \$971,069 based on prior-year performance at the RFK/DC Armory facility. Funding for Security at Eastern Market was proposed to be decreased by \$133,781 based on a revised forecast. The agency also proposes to reduce funding for personal services by \$77,629 and 1.0 FTE due to lower revenue estimates. Proposed funding for electricity decreased by \$47,678 based on a revised forecast for electricity usage. In Intra-District funds, DGS proposes to decrease funding primarily for Energy and Rent by \$3,421,286 based on revised estimates and allocations between Local and Intra-District funding sources.

Mayor's Proposed Budget

Enhance: DGS' proposed budget includes \$1,671,623 in Local funds across several fixed costs commodities based on revised estimates and \$375,000 to support the Bloomingdale Task Force project. The task force will provide free engineering consulting to residents of the Ledroit Park/Bloomingdale area, which is prone to flooding. The task force also provides a rebate of 90 percent, up to \$3,000, for improvements made in accordance with engineering consultation. DGS also proposes an increase of \$72,600 to provide security to the D.C. Office on Aging. The agency also proposes \$780,000 in Special Purpose Revenue funds to provide leased space.

Cost-of-Living Adjustment: This agency received a proposed cost-of-living adjustment (COLA) in both Local and non-Local funds. This adjustment includes \$45,061 in Special Purpose Revenue funds, and Intra-District funds may be impacted. For more information about the Local funds portion of the COLA, please see the Workforce Investments chapter contained in volume 3 (Agency Budget Chapters – Part II) of the FY 2014 Proposed Budget and Financial Plan.

Decrease: The FY 2014 proposed budget includes a total reduction of \$22,894,014 in Local funds comprised of \$6,650,450 for consolidated maintenance service contracts, \$6,341,858 for city-wide janitorial services, \$4,261,302 in the Asset Management program for agency relocations, \$4,500,000 to implement energy efficiency measures, and \$1,140,404 to migrate inherited security systems onto a central platform. The Special Purpose Revenue funds budget decreased by \$45,061 to offset the proposed cost-of-living adjustment. The agency also proposes a reduction of \$5,326,809 in Intra-District funds due to savings in the Electric and Natural Gas energy commodities.

District's Proposed Budget

Decrease: In Local funds, DGS' budget includes a reduction of \$1,000,000 for Occupancy associated with the Department of Employment Services (DOES). Prior to the FY 2014 budget formulation, DOES' Fixed Costs were centralized within DGS' budget. DOES will be an exception agency in FY 2014; consequently, the agency's Fixed Costs will be transferred to DGS via Intra-District funds.

The budget in Local funds also includes a reduction of \$1,900,000 to reflect a one-time adjustment of personal services costs in FY 2014 based on projected salary lapse savings. Finally, the agency's budget includes a reduction of \$99,229 and 1.0 FTE due to the elimination of a vacant position.

Transfer-In: In Local funds, \$615,175 was transferred from the Department of Public Works (DPW) and the Department of Transportation (DDOT) to fund several recycling initiatives. Specifically, \$389,175 in one-time costs was transferred from DPW to purchase recycling containers at the Department of Parks and Recreation's (DPR) 71 facilities. Additionally, \$226,000 was transferred from DDOT to fund recycling collections (\$201,000) at DPR's 71 facilities and to support school recycling programs (\$25,000) at D.C. Public Schools.
