(PreK)

Summer Construction Activities

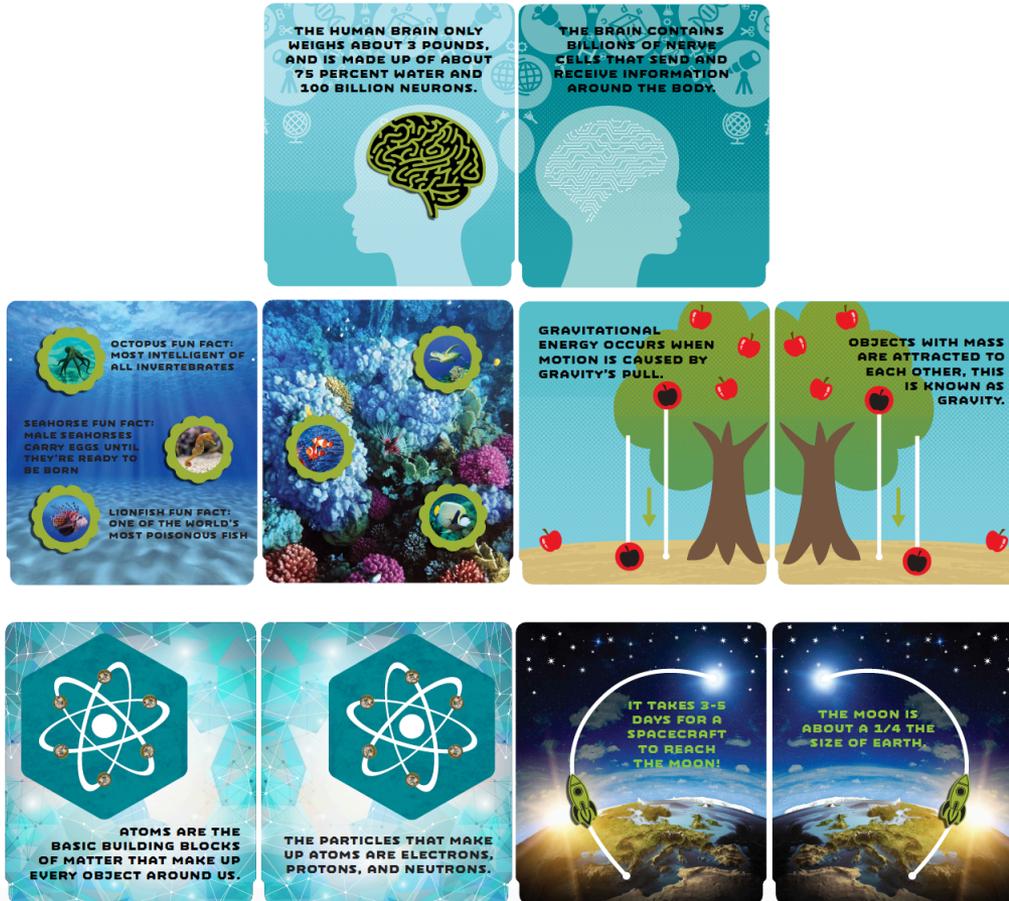

Playground – Summer 2016

(Kindergarten – 5th Grade)

Summer Construction Activities

Picture Exchange Communication System

Summer Construction Activities

Graphics – Summer 2016

Connector Graphic Theme: Dinosaurs
Dinosaurs is the theme proposed to be used in this connector Hallway. The proposed color is blue.

1st Floor East Wing: Under the Water
The theme proposed is "Under the Water", it will highlight the animals not shown on the graphics placed during phase I.

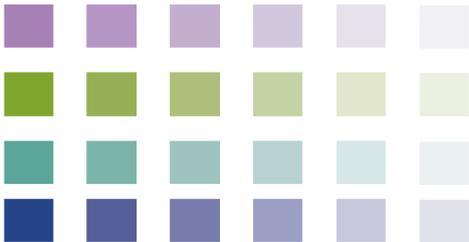

2nd Floor East Wing: Biology
This proposed biology graphic will include specific and basic content shown through infographic elements and silhouettes.

3rd Floor East Wing: Civics and History
Physics and Chemistry will be part of this 4th hallway graphic combining the elements that are common for both areas.

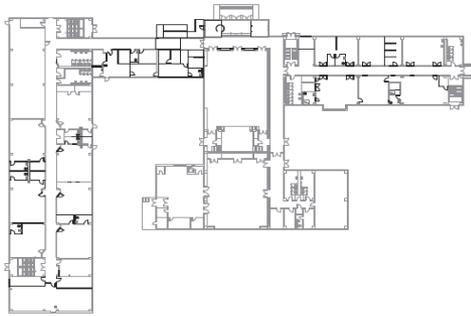

Color Palette

The color palette proposed for the graphics is the same used during phase I. The accent colors and graphics will work the same way on the hallways and bathrooms according to the color selected for each one.

Summer Construction Activities

Graphics – Summer 2016

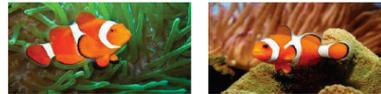

Color Palette

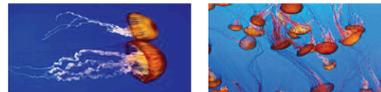

The proposed color palette for the bathrooms is a light teal color. The combination of the Teal color (shown below) and its gradients will create the perfect environment together with the graphics applied on the corresponding wall. The photographs selected for the bathrooms will have a special treatment to match the water with the wall color.

2nd Floor East Wing Girls Bathroom: Nemo Fish
Having Clown Fish in the bathrooms is the perfect way to relate to the children with nature in a colorful and playful way.

3rd Floor East Wing Boys Bathroom: Jelly Fish
Jelly Fish is a good way to show some other species that live under the water. Their taxonomy is very particular and the photographs will show it.

2nd Floor East Wing Boys Bathroom: Whale
Whales are one of the oldest sea animals in the world. Their size and specific characteristics will help the children remember during their learning process.

3rd Floor East Wing Girls Bathroom: Sting Ray
Another beautiful animal to show through graphic design work.

Summer Construction Activities

Graphics – Summer 2016

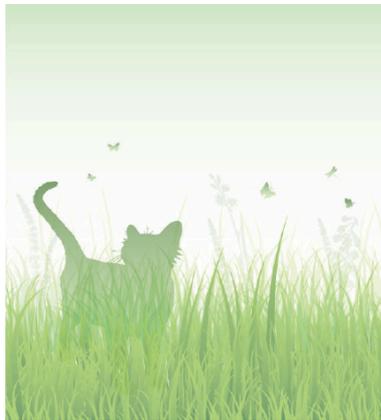

Auditorium Glass Door Graphics

The graphics to be applied on the Auditorium Glass doors will be printed on a translucent Vinyl that will allow one to slightly see through the doors but at the same time will maintain privacy. The design is a silhouette of a Wild Cat together with the logo in a monochromatic tone.

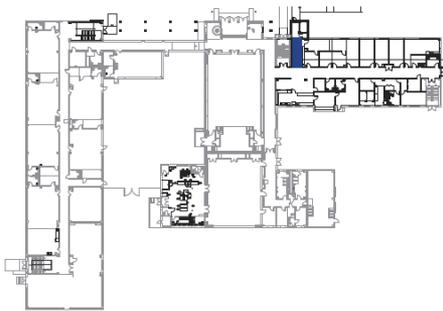

Color Palette

The color palette proposed for the graphics is the same used during phase I. The accent colors and graphics will work the same way on the hallways and bathrooms according to the color selected for each one.

Summer Construction Activities

Graphics – Summer 2016

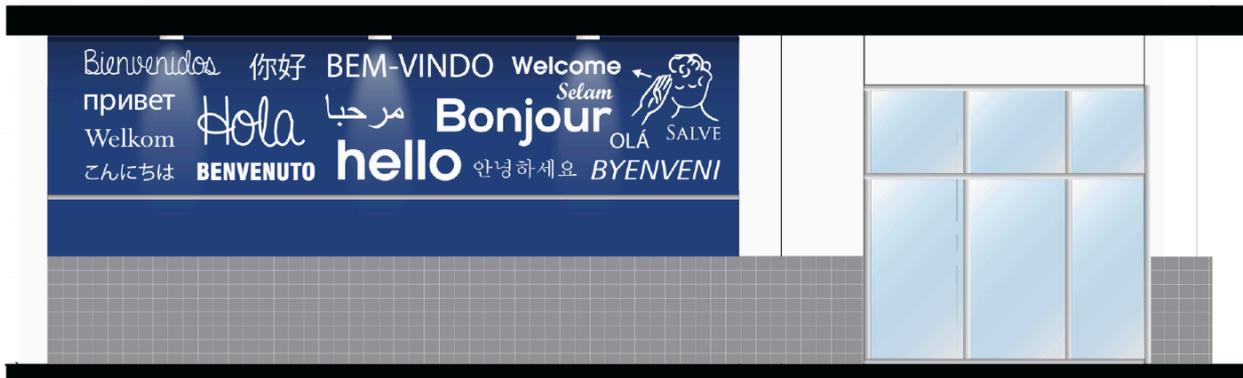

2nd Floor Welcome Graphic

The graphic to be applied on the 2nd Floor Welcome Hallway is a repetition of the Greeting Graphics Installed on the 1st Floor Niches during Phase I.

Color Palette

The color palette proposed for the graphics is the same used during phase I. The accent colors and graphics will work the same way on the hallways and bathrooms according to the color selected for each one.

Next Steps

- **Next SIT Meeting – June 16th @ 5pm**
- **Completion of Exterior Grounds / Playgrounds**
