Executive Summary

The District of Columbia Department of General Services (“DGS”, “District” or “Department”), on behalf of the District of Columbia Fire and Emergency Medical Services (“DCFEMS”), is issuing this Request for Proposals (“RFP”) to solicit the services of an architectural/engineering (“A/E”) firm to provide professional design services for a new DCFEMS Engine Company 26 (“FEMS E26”) in six (6) phases: (i) Predevelopment; (ii) Schematic Design; (iii) Design Development; (iv) Construction Documents and Project Specifications; (v) Bid Phase; and (vi) Construction Administration, at Fort Lincoln, NE, Washington, DC 20018. The new FEMS E26 facility will be located within the Brentwood neighborhood (the “Project”).

The A/E shall propose a lump sum fee for Title I and Title II services for the Project listed above, as further described herein.

A.1 Project Delivery Method

The Department intends to implement the construction of the Project through a design-bid-build delivery method. The Department will engage a general contractor based on the completed construction documents.

The A/E will work directly for the Department by supporting design oversight and implementation throughout the design and construction phases.

A.2 Services to be Performed

The A/E shall provide services to prepare and submit pre-development (feasibility analysis, site development, programmatic test fit, cost estimating), Schematic Design, Design Development, Construction Documents and associated Project Specifications, Bid Phase, and Construction Administration to the District of Columbia Government for the construction of the items listed in the Scope of Work (“SOW”). The Architect-Engineer shall submit a cost estimate during each of these six project phases, prior to the development and completion of the reports, construction documents and project specifications. Upon completion of the construction documents, the Architect-Engineer shall submit a final detailed construction cost estimate to accomplish the work. It will be the responsibility of the Architect-Engineer to review all existing documentation, interview key personnel, and conduct site visits and assessments as required to prepare the final documents.

The goal of this Project is to construct a new and properly sized Engine Company, which will allow DCFEMS to effectively and efficiently handle the requirements of its uniformed personnel.

A detailed SOW is attached to this RFP as (**Attachment A1**).

A.3 Coordination to be Performed

The A/E shall meet with all the appropriate regulatory agencies to include, but not be limited to the Historic Preservation Office (“HPO”), Department of Consumer and Regulatory Affairs (“DCRA”), Department of Energy & Environment (“DOEE”), National Capital Planning Commission (“NCPC”), Commission of Fine Arts (“CFA”), DC Water, Pepco, and Washington Gas, to ascertain zoning analysis, deed restrictions and requirements, traffic study, and potential environmental considerations for compliance. Upon complying with the aforementioned requirements and satisfactorily addressing all comments in the reviews, the A/E shall submit the final permitted documents to DGS.

A.4 Form of Contract

Offerors (“Offerors”) responding to this RFP should carefully review the form of the Agreement for Architectural / Engineering Services (“Form of Contract”) and DGS Standard Contract Provisions for Architectural Engineering Contracts (“SCPs”), which are/will be attached to this RFP as **Attachment F (to be issued via addendum)** and **Attachment G**, respectively. To the extent there are any inconsistencies between this RFP, the Form of Contract and the SCPs, the Form of Contract and SCPs shall prevail. Offerors are further advised that they are required to submit their Proposals premised upon entering into a contract that is substantially similar to the Form of Contract and that any proposed changes to the Form of Contract must be clearly identified and described in the Offeror’s Proposal. A Proposal that fails to specifically identify and describe requested changes shall be deemed non-responsive.

A.5 Design Fees and Incentives

As will be more fully described in the Form of Contract, the selected A/E will be paid a fixed price for all design phase services through construction administration services. Offerors will be required to propose a Design Fee that covers all of the Offeror’s costs associated with the preparation or provision of the (i) predevelopment; (ii) schematic design; (iii) a set of design development documents; (iv) complete construction documents and project specifications; (v) bidding; and (vi) construction administration services. Offerors will also be required to submit a schedule of hourly rates for any additional work that is required.

A schedule of values should be provided that allocates the Design Fee among the various design phases (i.e. predevelopment, schematic design, design development, construction documents, bidding and construction administration).

Offerors shall submit, on the Offeror’s letterhead, an Offer Letter in substantially the form of **Attachment B** of this RFP that includes the proposed Design Fee, and hourly rates.
