1. The Department has determined that it is in the best interest of the District to continue services with the incumbent, SFMS, under a temporary emergency contract, and SFMS is the only vendor who can meet the District’s minimum need without a disruption of services at this time.
2. SFMS, based on relevant past performance, capacity and references has the relevant technical experience, is uniquely positioned to ensure continuity of services with no disruption to the daily operational needs of Ballou Senior High School.
3. The estimated cost to the District for this temporary emergency period is fair and reasonable based on DGS’ historical data on similar services.
4. An emergency procurement is the most advantageous method to minimize disruption to overall facility operations; it ensures a continuation of service while the Department issues a Request for Proposal and goes through the competitive solicitation process and award for a base period and up to four one-year option periods and upon Council approval, if applicable.
