- End of Addendum No. 4 -

EXHIBIT A

The exhibit shall appear on the following page.

Asbestos Chain of Custody (Air, Bulk, Soil)

EMSL Order Number / Lab Use Only

EMSL Analytical, Inc.
200 Route 130 North
Cinnaminson, NJ 08077

192300667

PHONE: (800) 220-3675
EMAIL: cinnaminson@emsl.com

EMSL ANALYTICAL, INC.
TESTING LABS - PRODUCTS - TRAINING

If Bill-To is the same as Report-To leave this section blank. Third-party billing requires written authorization.

Customer Information and Billing Information section containing fields for Customer ID, Company Name, Contact Name, Street Address, City, State, Zip, Country, Phone, and Email(s) for Report and Invoice.

Project Information section containing fields for Project Name, EMSL LIMS Project ID, Sampled By Name, Sampled By Signature, Turn-Around-Time (TAT) selection, and Purchase Order details.

Test Selection section containing checkboxes for various testing methods including PCM Air, TEM - Air, TEM - Bulk, TEM - Settled Dust, and Soil - Rock - Vermiculite.

Filter Pore Size (Air Samples) section with checkboxes for 0.8um and 0.45um.

Table with 4 columns: Sample Number, Sample Location / Description, Volume, Area or Homogeneous Area, and Date / Time Sampled (Air Monitoring Only). Row 1: 1, WALL FLASHING.

Special Instructions and/or Regulatory Requirements (Sample Specifications, Processing Methods, Limits of Detection, etc.)

Method of Shipment and Relinquished/Received by section with signature and date fields.

AGREE TO ELECTRONIC SIGNATURE (By checking, I consent to signing this Chain of Custody document by electronic signature.)
EMSL Analytical, Inc.'s Laboratory Terms and Conditions are incorporated into this Chain of Custody by reference in their entirety.

Joe Centifonti, Laboratory Manager
or Other Approved Signatory

EMSL maintains liability limited to cost of analysis. Interpretation and use of test results are the responsibility of the client. This report relates only to the samples reported above, and may not be reproduced, except in full, without written approval by EMSL. EMSL bears no responsibility for sample collection activities or analytical method limitations. The report reflects the samples as received. Results are generated from the field sampling data (sampling volumes and areas, locations, etc.) provided by the client on the Chain of Custody. Samples are within quality control criteria and met method specifications unless otherwise noted. The above analyses were performed in general compliance with Appendix E to Subpart E of 40 CFR (previously EPA 600/M4-82-020 "Interim Method") but augmented with procedures outlined in the 1993 ("final") version of the method. This report must not be used by the client to claim product certification, approval, or endorsement by NVLAP, NIST or any agency of the federal government. Non-friable organically bound materials present a problem matrix and therefore EMSL recommends gravimetric reduction prior to analysis. Unless requested by the client, building materials manufactured with multiple layers (i.e. linoleum, wallboard, etc.) are reported as a single sample. Estimation of uncertainty is available on request.

Samples analyzed by EMSL Analytical, Inc. Beltsville, MD NVLAP Lab Code 200293-0
