# PROJECT OVERVIEW

---

- **Project Budget:** \$500,000
- **Project Scope:** Replacement of the 2014 synthetic turf with new synthetic turf (including the infill) and replacement of the existing track with a new poured in place rubber surface.

# PROJECT OVERVIEW

---

- **Turf Replacement: SYNAugustine x 47**
  - USDA Certified Bio-Based artificial grass system in combination with organic infill, able to display a unique USDA label highlighting its percentage of biobased content.
  - First artificial grass manufacturer to receive USDA Certification.
  - Contains no PFAF's (Chemicals) or other harmful ingredients, certified by 3rd party testing.
- **Infill: Envirofill**
  - Envirofill is made up of pieces of coated sand with antimicrobial protection infused into every piece to help prevent the growth of bacteria and microbes that can cause stains, odors, and product deterioration.
  - Envirofill has been thoroughly tested and proven to be free of toxins and is exempt from California's Prop 65 labeling requirements, which protects consumers in California by requiring companies to display warning labels on products with chemicals linked to cancer, birth defects, or other reproductive harm.
  - Tested to be up to 25% cooler than rubber alternatives.
- **Track Replacement: Poured-in-Place Rubber (PIP)**
