# Rules of the Road:

Welcome! Thank you for your participation.

- Please Hold all questions until the end of the presentation.
- Sign-In Before you leave.

## Agenda:

1. Introduction
2. Project Overview and Opportunities
3. Project Process and Timeline
4. Plans: Existing, Proposed, Playgrounds & Amenities
5. Next Steps
6. Contact Information
7. Community Feedback

# HELP PLAN THE FUTURE OF DC'S PARKS AND RECREATION!

## SATURDAY, MARCH 14

Kick-Off Meeting  
11:00 AM – 1:00 PM  
Edgewood Recreation Center  
300 Evarts Street, NE

## WEDNESDAY, MARCH 18

2nd Community Meeting  
6:30 PM – 8:30 PM  
Barry Farm Recreation Center  
1230 Sumner Road, SE

## TUESDAY, MARCH 24

3rd Community Meeting  
6:30 PM – 8:30 PM  
King Greenleaf Recreation Center  
201 N Sreet, SW

## SATURDAY, MARCH 28

4th Community Meeting  
10:00 AM–12:00 PM  
Glover Park Recreation Center  
4100 Calvert Street, NW

EXISTING CONDITIONS

**Tree Inventory**  
**Powell Recreation Center**  
**Washington, DC**  
**January 22, 2020**

Map Number	Common Name	Scientific Name	DBH (Trunk Diameter in Inches Measured at 4.5 FT)	Condition	Notes
1	Willow Oak	<i>Quercus phellos</i>	39.4	Good/Fair	Full crown. Good vigor. moderate amount of dead wood throughout crown. Good taper at base. dramatic amount of exposed surface roots. moderate amount of compaction in areas, but possibly not as problematic due to sandy soil
2	White Ash	<i>Fraxinus americana</i>	40.1	Poor	Crown dying back throughout. some vigor remaining. Major decay at old branch breakout wound. Major decay also in main trunk at and below union of two stems, open cavity, sounding mallet indicates trunk hollow all around. notable exposed surface roots. tree located close to asphalt
3	Pin Oak	<i>Quercus palustris</i>	39	Excellent	Canopy very full and vigorous. Minor dead wood throughout crown. tree about 7 ft from sidewalk curb, about 6 ft from asphalt path inside playground. grade raised slightly from nearby path, compaction not as bad
4	Willow Oak	<i>Quercus phellos</i>	48.5	Exc/Good	Crown very full and vigorous. Well developed taper at root flare. Roots constrained by nearby curb and parking area. Root flares come to edge of fence line but then go underground and/or disappear, could have been covered with fill when baseball field was installed, or severed.
5	Scarlet Oak	<i>Quercus coccinea</i>	*23	Fair	Tip dieback in crown, moderate to low vigor. *diameter estimated visually through fence due to no access
6	Ginkgo	<i>Ginkgo biloba</i>	30.3	Good/Fair	Moderately vigorous. close to paved path. somewhat limited rooting space. Minor damage to bark
7	Sweetgum	<i>Liquidambar styraciflua</i>	10	Good	Good vigor. Good rooting volume. notable circling root that could become problematic
8	Eastern Redbud	<i>Cercis canadensis</i>	9.8	Fair/Poor	Notable dieback and broken branches. reduced crown size. some wounding and decay at base of trunk
9	Pin Oak	<i>Quercus palustris</i>	30.6	Good	Moderately vigorous and full. Minor dead limbs. notable exposed surface roots. notable soil compaction. moderately close to sidewalk curb and driveway curb

SHADE STRUCTURE AND PICNIC TABLES

drinking fountain
