- For 501 NY Ave building – can you confirm if there is any chance of additional stairwells in the building, or are we correct in assuming there will be none? **This is swing space only, An additional staircase will take away from program areas. If AE believes another staircase is required for life safety reasons, it should be included in analysis.**
- Assuming that no new elevators or stairs are needed in One Judiciary Square, as this is a well-used office building?
 - **Please plan for the other areas of the building to be fully occupied during construction.**
- Question 32- Can you confirm what floors will be used for the swing space?
