Executive Summary

The District of Columbia Department of General Services (“DGS”, “District” or “Department”), on behalf of the Metropolitan Police Department (“MPD”), is issuing this Request for Proposals (“RFP”) to solicit the services of an architectural/engineering (“A/E”) firm to provide professional design services for the 4th District Headquarters District of Columbia Metropolitan Police Department, located at 6001 Georgia Ave NW, Washington, DC (the “Project”).

MPD is committed to renovate this facility to ensure that all systems function properly for the intended purpose, and so MPD’s maintenance staff has adequate system access, control, monitoring capabilities, documentation, and training to properly monitor, manage, and maintain the facility. The Project will consist of six (6) phases: (i) Program of Requirements (POR); (ii) Schematic Design; (iii) Design Development; (iv) Construction Documents and Project Specifications; (v) Bid Phase; and (vi) Construction Administration.

The A/E shall propose a lump sum fee for Title I and Title II services for the Project listed above, as further described herein.

A.1 Project Delivery Method

The Department intends to implement the construction of the Project through a design-bid-build delivery method. The Department will engage a general contractor based on the completed construction documents.

The A/E will work directly for the Department by supporting design oversight and implementation throughout the design and construction phases.

A.2 Services to be Performed

The goal of this Project is to renovate the deficiencies identified in the comprehensive facility condition assessment **Attachment A3**. in order to meet the existing and future needs of 6001 Georgia Avenue, Washington, DC. The building’s elemental components have been inventoried, key attributes of those components have been identified, estimated remaining useful lives (RULs) and replacement costs have been determined and the deficiencies and repair costs needing immediate attention have been identified. The A/E shall provide services to prepare and submit POR, Schematic Design, Design Development, Construction Documents and associated Project Specifications, Bid Phase, and Construction Administration for the construction of the items listed in the Scope of Work (“SOW”). The A/E shall submit a cost estimate during each of these six Project phases, prior to the development and completion of the reports, construction documents and project specifications.

Upon completion of the construction documents, the A/E shall submit a final detailed construction cost estimate to accomplish the work. It will be the responsibility of the A/E to review all existing documentation, interview key personnel, and conduct site visits and assessments as required to prepare the final documents.

A detailed scope of work and technical requirements and submittal guide is attached to this RFP as (**Attachment A-1 and A-2**).

A.3 Coordination to be Performed

The A/E shall meet with all the appropriate regulatory agencies including, but not limited to the Historic Preservation Office (“HPO”), Department of Consumer and Regulatory Affairs (“DCRA”), Department of Energy & Environment (“DOEE”), National Capital Planning Commission (“NCPC”), Commission of Fine Arts (“CFA”), DC Water, Pepco, and Washington Gas, to ascertain zoning analysis, deed restrictions and requirements, traffic study, and potential environmental considerations for compliance. Upon complying with the aforementioned requirements and satisfactorily addressing all comments in the reviews, the A/E shall submit the final permitted documents to DGS.

A.4 Form of Contract

Offerors (“Offerors”) responding to this RFP should carefully review the form of the Agreement for Architectural/Engineering Services (“Form of Contract”) and DGS Standard Contract Provisions for Architectural Engineering Contracts (“SCPs”), which are attached to this RFP as **Attachment F** and **Attachment G**, respectively. To the extent there are any inconsistencies between this RFP, the Form of Contract and the SCPs, the Form of Contract and SCPs shall prevail. Offerors are further advised that they are required to submit their Proposals premised upon entering into a contract that is substantially similar to the Form of Contract and that any proposed changes to the Form of Contract must be clearly identified and described in the Offeror’s Proposal. A Proposal that fails to specifically identify and describe requested changes shall be deemed non-responsive.

A.5 Design Fees

As will be more fully described in the Form of Contract, the selected A/E will be paid a fixed price for all design phase services through construction administration services. Offerors will be required to propose a Design Fee that covers all of the Offeror’s costs associated with the preparation or provision of the (i) POR; (ii) schematic design; (iii) a set of design development documents; (iv) complete construction documents and project specifications; (v) bidding; and (vi) construction administration services. Offerors will also be required to submit a schedule of hourly rates for any additional work that is required.

A schedule of values should be provided that allocates the Design Fee among the various design phases (i.e. schematic design, design development, construction documents, bidding and construction administration).

Offerors shall submit, on the Offeror’s letterhead, an Offer Letter in substantially the form of **Attachment C** of this RFP that includes the proposed Design Fee and hourly rates.

The Department desires to have the A/E develop a phasing plan to accommodate the Project, as necessary. The cost of developing phasing plan shall be included in the Offeror's Design Fee.

A.6 Selection Criteria

Proposals will be evaluated in accordance with the evaluation criteria as further described in **Section D** of this RFP.

A.7 Estimated Project Schedule

The preliminary Project milestone schedule is as follows:

These policies shall include a separation of insureds clause applicable to the additional insured.
