SPECIAL COMMUNITY ADVISORY

July 30, 2018

Street Closure August 11, 2018

The Department of General Services (DGS) is pleased to announce that construction of the Ward 4 Short-Term Family Housing facility is progressing well. Installation of the facility's green roof system is scheduled to be installed on Saturday, August 11, 2018.

The installations will require a crane and therefore, the closure of 5th Street NW in front of the construction site between Longfellow and Kennedy Streets NW, during the approved DCRA permit hours. Pedestrians may use the sidewalk on the opposite side of the street.

The Contractor, Moseley Construction Group, will have flagmen on-site to ensure the safety of vehicles and pedestrians during the installation.

Questions? Please direct all inquiries to STFHprojects.dgs@dc.gov

For your safety, only authorized personnel are allowed to access the construction sites.
