

Francis Pool Project Update Agency Statement by the DC Department of General Services (DCDGS):

May 2022

Dear Community Stakeholders/Residents:

The DC Department of General Services (DGS) is committed to providing residents with safe, dynamic, and accessible recreational spaces and takes the responsibility of the maintenance and repair of our properties across the District very seriously.

We look forward to delivering an upgraded Francis Pool to the community. While performing a scheduled replacement of the pool shell, contractors discovered unexpected structural problems that require immediate attention to prevent safety and environmental hazards. DGS is working in partnership with the Department of Parks and Recreation (DPR) to perform this stabilization work.

We understand the disappointment this creates by keeping Francis Pool closed for the Summer of 2022. We thank you for your patience.
