B.1 INTRODUCTION

The District of Columbia Department of General Services (the “District”, “DGS” or “Department”) is issuing this Invitation for Bids (“IFB”) to engage a Small Business Enterprise (SBE) firm contractor (“Contractor”) to complete the renovation of Blue Plains Impound Lot in accordance with Scope of Work (Section C), and Drawings and Specifications, attached hereto as Attachment J.1 (the “Project”). The DC Blue Plains Impound Lot (DC BPIL) is responsible for evidence control and is legally required to store vehicles for as long as 75 years. After undergoing years of deferred maintenance and being placed under a consent order from the Environmental Protection Agency (EPA) for the site's storm water management practices, BELL Architects (the “Architect” or “A/E”) was selected to oversee the modernization of the existing impound lot administrative office and site infrastructure.

The Department intends to make one (1) contract award to the Bidder who submits the lowest evaluated bid that is responsive and responsible. To this end, the Department will evaluate bids as submitted in the Offer Letter and Bid Form, consistent with the price-related evaluation factors identified in this IFB.

In addition to the attachments required by Section L.18, the bids should include the following:

- A lump sum price to provide the required construction services for the Project. The lump sum price should be to complete the scope of work in accordance with the Drawings and Specifications (**Attachment J.1**). The lump sum price should be based on the Davis-Bacon Wage Determination attached hereto as **Attachment J.7** and as may be updated by the U.S Department of Labor prior to a Bidder’s submission of its bid.
- Interested contractors that submit bids in response to this IFB (“Bidder(s)”) should include a schedule of values breaking down the proposed lump sum price in the form of **Attachment J.2**.

IMPORTANT NOTICE: DGS will notify Bidders of any changes, additions and or deletions to the specifications and or responses to questions by addenda to this IFB as they will be posted on the DGS’ website. It is the Bidder’s responsibility to frequently visit DGS’ website at: <http://dgs.dc.gov/page/dgs-solicitations> to obtain addenda once they have received a copy or downloaded a copy of the IFB.

B.2 TYPE OF CONTRACT

B.2.1 This will be Lump Sum Price type contract. Bidders will be required to provide a Lump Sum Price which shall include sufficient funds to cover all the expenses necessary to complete the Project, including, but not limited to, profit, home and field office overhead, supervision, labor, materials, equipment, bonds, insurance and other services that may be required to obtain the necessary permits, and construct the work. The Lump Sum Price shall also include sufficient funding to fund items that are not specifically identified on the Drawings and Specifications but which are reasonably inferable therefrom. The District contemplates award of a Lump Sum Price contract to multiple contractors, therefore contracts resulting from this IFB to the lowest evaluated Bidder who is responsive and responsible.

B.3 PRICE SCHEDULE/BID FORM – Lump Sum Price

B.3.1 Lump Sum Price

The awarded Contractor shall be paid a Lump Sum Price, as detailed in **Attachment J.2**, to complete the Project.

B.3.2 Work Included in the Lump Sum Price

The Bidder acknowledges and understands that the Lump Sum Price is based on the Scope of Work (Section C), including the **Drawings and Specifications (Attachment J.1)**, which are incorporated into the Contract awarded pursuant to this IFB. It is understood and agreed that the Lump Sum Price represents the Bidder's offer to complete the Project. The Parties acknowledge and agree that it is the Department's intent to have the awarded Contractor provide all labor, materials, and equipment to complete the project as contemplated in the Contract Documents, for the Lump Sum Price and consistent with the Project Schedule. In furtherance of such intent, the awarded Contractor assumes the risks associated with and shall be responsible for (i) any changes in market conditions that affect the cost of labor or materials; (ii) coordination issues between the drawings; (iii) elements of work not shown on the Contract Documents, but which are reasonably inferable from the Contract Documents; (iv) cost associated with acceleration of the work and expediting of materials necessary to meet the Project Schedule which are the result of anything other than an Excusable Delay; and (v) the risk of subcontractor default or non-performance. It is understood and agreed by the Parties that items (i) through (v) listed in the preceding sentence are not intended to be an exclusive list of the risks assumed by the awarded Contractor and that such items represent a partial list of the risks assumed by the awarded Contractor.

B.3.3 Basis of Lump Sum Price

The Lump Sum Price is based on the following documents that are incorporated into the IFB and resulting Contract:

B.3.3.1 Attachment J.1 Drawings and Specifications

- B.3.3.2 Attachment J.2**
Offer Letter and Bid Form
- B.3.3.3 Attachment J.5**
Subcontracting Plan and Subcontracting Agreements
- B.3.3.4 Attachment J.6**
Living Wage Act Notice and Fact Sheet
- B.3.3.5 Attachment J.7**
Davis Bacon Wage Rates Determination

B.4 ACKNOWLEDGEMENT OF REVIEW OF CONTRACT DOCUMENTS

Before submitting its bid in response to this IFB, the Bidder acknowledges that it reviewed the Drawings and Specifications for accuracy, constructability, and completeness and was required to bring such deficiencies to the attention of the Department so that the Department's Architect/Engineer can address any such deficiencies. The awarded Contractor acknowledges that any deficiencies it identifies after submitting its bid shall not be the basis for a change in the Lump Sum Price or delaying the Project Schedule to the extent that any such deficiencies in the Drawings and Specifications could have been identified by prior review of a competent prospective Contractor.

B.4.1 During the term of the awarded Contract, should any errors, omissions, ambiguities or discrepancies be found on the Contract Documents, or should there be found any discrepancies between the Contract Documents to which the awarded Contractor has failed to call attention before submitting its bid, the awarded Contractor shall bring any such errors, omissions, ambiguities or discrepancies to the attention of Department, and the Department will interpret the intent of the Contract Documents. The awarded Contractor agrees to abide by and to carry out the Work in accordance with the decision of the Department. Wherever the intent of the Contract Documents is not indicated clearly or there is a conflict between the Contract Documents, the awarded Contractor will be held to have included in the Lump Sum Price the more expensive material or method of construction and the quantity of material.

B.4.2 If any item or material shown on the Drawings is omitted from the Specifications, or vice versa (except when the Drawings and Specifications clearly exclude such omitted item), and such item or material is required to complete the detail shown or specified, and if additional details or instructions are required to complete the Work, then the awarded Contractor is deemed to have made an allowance in the Lump Sum Price for the completion of the Work, consistent with adjoining or similar details and the best accepted practices of the trade for projects of this type and quality, whichever is more expensive, unless such additional information was not reasonably inferable from the Contract Documents. Without limiting the awarded Contractor's other duties, in the case of a difference among the Contract Documents as to the Contractor's obligations, or an inconsistency in the Contract

Documents, the Department will decide which requirement governs; however, the awarded Contractor shall assume that the more expensive material or method of construction and the quantity of material shall be required without a change to the Lump Sum Price.

B.4.3 Execution of the Contract by the awarded Contractor is a representation that the Contractor has thoroughly examined all Contract Documents, including all details, plans, elevations, sections, schedules and diagrams, has visited the site, has become familiar with local conditions under which the Work is to be performed, has correlated personal observations with the requirements of the Contract Documents, and has satisfied itself before executing the Contract as to all matters that can affect the Work and its cost, including: (1) the nature of the land and subsoil; (2) the form and nature of the site and surrounding areas; (3) details and levels of existing pipe lines, conduits, sewers, drains, cables or other existing services; (4) the quantities, nature and availability of the materials, tools, equipment and labor necessary for the completion of the Work; (5) the means of access to the site and any accommodation he may require; (6) uncertainties of weather and physical conditions at the site; and in general to have himself obtained all necessary information as to risk contingencies, climatic, hydrological and natural conditions and other circumstances which may influence or affect his performance of the Work. The awarded Contractor waives any and all claims against the Department arising from or relating to such contingencies and conditions that are reasonably inferable from the Contract Documents, in light of the required preconstruction review and inspection and the Contractor's expertise in the field of construction.

B.5. A Bidder responding to this IFB must submit with its bid a copy of the certification acknowledgment letter, and a notarized statement detailing any subcontracting plan required by law. A Bidder responding to this IFB shall be deemed nonresponsive and shall be rejected if the Bidder fails to submit a subcontracting plan required by law. For contracts in excess of \$250,000.00, a Bidder shall ensure that its bid complies with the subcontracting requirement(s) in accordance with Section J.5 of this IFB.

B.6 SPECIAL PROVISIONS RELATED TO THE COVID-19 EMERGENCY

- (a) Notwithstanding Section H.9 SUBCONTRACTING REQUIREMENTS, for all contracts in excess of \$250,000 that are unrelated to the District's response to the COVID-19 emergency but entered into during the COVID-19 emergency, absent a waiver pursuant to D.C. Official Code § 2-218.51, at least 50% of the dollar volume ("CBE minimum expenditure") of the contract shall be subcontracted to SBEs.
- (b) If there are insufficient qualified SBEs to meet the requirement of paragraph (a), the subcontracting requirement may be satisfied by subcontracting the CBE minimum expenditure to any qualified CBE; provided, that best efforts shall be made to ensure that qualified SBEs are significant participants in the overall subcontracting work.

- (c) For every dollar expended by the Contractor with a resident-owned business (ROB), as defined in D.C. Official Code § 2-218.02(15), the Contractor shall receive a credit for \$1.10 against the CBE minimum expenditure.
- (d) For every dollar expended by the Contractor with a disadvantaged business enterprise (DBE), as defined in D.C. Official Code § 2-218.33, the Contractor shall receive a credit for \$1.25 against the CBE minimum expenditure.
- (e) For every dollar expended by the Contractor that uses a company designated as both a DBE and as a ROB, the Contractor shall receive a credit for \$1.30 against the CBE minimum expenditure.
- (f) "COVID-19 emergency" means the emergencies declared in the Declaration of Public Emergency (Mayor's Order 2020-045) together with the Declaration of Public Health Emergency (Mayor's Order 2020-046), declared on March 11, 2020, including any extension of those declared emergencies.
- (g) This special provision shall apply to all option periods exercised under those contracts.
- (h) Except as provided in this paragraph **B.7**, the requirements of section H.9 shall remain in effect.

Prior to submitting its bid, each Offeror shall carefully review the Drawings and Specifications and shall bring any inconsistency or error

in the drawings and specifications to the attention of the Department in writing. To the extent that a competent Contractor could have identified any such inconsistency or error, such inconsistency or error shall not serve as the basis for a change order and the Contractor shall assume the risk of such inconsistency or error.

C.3 Preconstruction Activities

Prior to mobilizing to the Project site and commencing work, the Contractor shall be required to complete those activities set forth in this **Section C.2**. Unless a delay in completing the preconstruction activities is the result of a delay beyond the timeframes set forth herein by the Department, the Program Manager, the Code Official or the Architect or an event of force majeure, delays in completing the preconstruction activities shall not be considered excusable and shall not justify an extension of the substantial completion date.

C.3.1 Detailed Schedule. Within seven (7) days of the issuance of a Notice to Proceed, the Contractor shall submit to the Department for its approval a schedule of Project. Such schedule shall include a schedule for submittals that is reasonably acceptable to the Program Manager. The Program Manager shall have five (5) business days to review such submittal.

C.3.2 Preconstruction Submittals. On or before the dates specified in the approved detailed schedule, the Contractor shall submit any necessary preconstruction phase information to the Program Manager for his review and approval. Safety Plan shall address, among other things, all safety requirements related to working in the current COVID-19 environment.

C.3.3.1 Safety Barriers/Fences. As part of its responsibility for Project safety, the Contractor shall install such fences and barriers as may be necessary. The Contractor shall develop a plan that describes the proposed separation and the specific nature of the fences and barriers that will be used. This plan will be submitted to the Department for their review and approval prior to the commencement of construction, and the Program Manager shall have five (5) business days to review such plan. Once such plan has been approved, the Contractor shall comply with it at all times during construction. The Contractor shall be required to revise the plan as may be reasonably requested by the Department. The cost of revising and complying with the revised plan shall not entitle the Contractor to an increase in the Lump Sum Price.

C.3.3.2 Site Security. The Contractor shall be responsible for site security and shall be required to provide such watchman as are necessary to protect the site from unwanted intrusion.

C.3.3.3 Exculpation. The right of the Department to comment on the Safety Plan and the nature and location of the required fences and barriers shall in no way absolve the Contractor from the obligation to maintain a safe site.

C.3.4 Site Logistics Plan. Prior to the start of construction activities, the Contractor shall prepare a Site Logistics Plan. The Site Logistics Plan shall address: (i) the manner in which the Contractor intends to organize the site; (ii) the location and description of site fences and other safety barricades intended to prevent the public from entering the site; (iii) the location of construction entrances and wheel washing stations; and (iv) parking restrictions and procedures that will apply to the employees of Contractor and its Subcontractors. The Contractor's storage/laydown area will be limited to the limits of disturbances shown on the Drawings and Specifications.

Within five (5) business days after such list is submitted, the Program Manager shall advise the Contractor if it has any objection to any of the listed subcontractors or suppliers. In the event the Program Manager has a reasonable objection to any such subcontractor or supplier, the Parties shall discuss such objection and agree on an appropriate course of action. To the extent the Department rejects a subcontractor that was disclosed in the bid, the Contractor shall be entitled to an appropriate equitable adjustment as a result of such disapproval.

C.4.15 Manufacturers' Warranties

C.4.15.1 The Contractor warrants that all manufacturers' or other warranties on all labor, materials and equipment furnished by the Contractor or a Subcontractor or supplier shall run directly to or will be specifically assigned to Department on demand or upon Project completion without demand. In the event any issue or defect which would be covered by any warranty arises but is not addressed by the grantor of the warranty, the Contractor shall be required to act as the guarantor of the obligations under the warranty and to perform under the terms of the warranty.

C.4.15.2 The Contractor warrants that the installation of all materials and equipment shall be in strict accordance with the manufacturers' requirements or specifications.

C.4.16 Schedule Updates. The Contractor shall submit bi-weekly schedule updates which shall reflect actual conditions of Project progress as of the date of the update. The update shall reflect the actual progress of construction, identify developing delays, regardless of their cause, and reflect the Contractor's best projection of the actual date by which Substantial Completion and Final Completion of the Project will be achieved. Via a narrative statement (not merely a critical path method schedule), the Contractor shall identify the causes of any potential delay and state what, in the Contractor's judgment, must be done to avoid or reduce that delay. The Contractor shall point out, in its narrative, changes that have occurred since the last update, including those related to major changes in the scope of work, activities modified since the last update, revised projections of durations, progress and completion, revisions to the schedule logic or assumptions, and other relevant changes. Any significant variance from the previous schedule or update shall also be identified in a narrative, together with the reasons for the variance and its impact on Project completion. All schedule updates shall be in Primavera 6 format. The Department may make reasonable requests during the Project for changes to the

format or for further explanation of information provided. Submission of updates showing that Substantial Completion or Final Completion of the Project will be achieved later than the applicable scheduled completion date shall not constitute requests for extension of time and shall not operate to change the scheduled completion date. The Department's receipt of, and lack of objection to, any schedule update showing Substantial Completion or Final Completion later than the dates agreed upon in the Project Schedule shall not be regarded as the Department's agreement that the Contractor may have an extension of time, or as a waiver of any of the Department's rights, but merely as the Contractor's representation that, as a matter of fact, Substantial Completion or Final Completion of the Project may not be completed by the agreed upon date in the Project Schedule. Changes to the scheduled completion dates may be made only in the circumstances and only by the methods set forth in the Contract.

C.4.17 Acceleration. Subject to the terms of this Section, the Department shall have the right to direct the Contractor to accelerate the Work if, in the reasonable judgment of Department, the Contractor fails to: (i) supply a sufficiency of workers or to deliver the materials or equipment with such promptness as to prevent the delay in the progress of the Work; or (ii) the progress of the Work materially falls behind the projections contained in the then currently approved Project Schedule. In the event that the Department or its Program Manager determine that either of the events specified in the preceding sentence have occurred, the Department shall provide the Contractor with written notice of such event and the Contractor shall be required to provide the Department with a corrective action plan that is reasonably designed to address the concerns raised in such notice within three (3) days after receipt of such notice. If the Department and the Contractor are unable to agree on the terms of such corrective action plan within five (5) days after the issuance of the notice (i.e. with forty eight (48) hours after the receipt of the proposed corrective action plan), the Department shall have the right to direct such acceleration as the Department, in its reasonable judgment, deems necessary. Provided the notice provisions of this Section are complied with and the delay in the critical path is not the result of Excusable Delays, the cost of any acceleration directed under this Section shall not justify an adjustment to the Lump Sum Price or the Substantial Completion Date. The Contractor hereby acknowledges that this provision is a material inducement upon which the Department has relied in entering into the Contract; and represents and warrants that it has included sufficient funding in its Lump Sum Price in order to comply with the requirements of this Section.

C.5 Substantial Completion Date. The Project shall be substantially complete no later than **November 15, 2020**. For purposes of this requirement, the term "**Substantially Complete**" shall mean that all of the following have occurred: (1) the work has been completed with only minor punch list items remaining to be completed; (2) any and all required permits or approvals related to the work have been obtained; (3) all operating and maintenance manuals, training videotapes and warranties required by the Contract have been delivered to the Department; (4) any supplemental training session required by the Contract for operating or maintenance personnel have been completed; (5) all clean-up required by the Contract has been completed; and (6) the Project is ready for the Department to use it for its intended purpose. "**Minor punch list items**" are defined for this purpose as items that, in the aggregate, can be completed within thirty (30) days without interfering with the Department's normal use of the Project. Final Completion shall mean the point at which Substantial Completion has been achieved, all punch list items noted at Substantial Completion have been completed and all documents the Contractor is required to deliver

to the Department as a condition to receiving final payment have been received. Work is defined as the construction and services required by the Contract, whether completed or partially completed, and includes all other labor, materials, equipment, and services provided or to be provided by the Contractor to fulfill the Contractor's obligations. The Work may constitute the whole or a part of the Project.

C.6 Administrative Matters

C.6.1 Use of Department's Electronic Project Management Information System (PMIS).

Awarded Contractor shall utilize the Department's PMIS to create, manage and/or submit any and all documentation required to be provided by the vendor during the course of the Project, including, but not limited to: (i) requests for information; (ii) submittals; (iii) potential change orders; (iv) meeting minutes; (v) pencil copy invoices; (vi) drawings and specifications; (vii) punchlist; and (viii) other documents as may be designated by the Department

The Contractor and the Department agree that the liquidated damages do not constitute, and shall not be deemed, a penalty but represent a reasonable approximation of the damages to the Department associated with a delay in the Project.

C.6.3 Compensation. The Contractor shall be paid its compensation in a series of progress payments and a final payment. Progress payments shall be based on a Schedule of Values that is agreed upon by the Parties as well as the Program Manager's good faith estimate of the level of completion for each component of the Schedule of Values. Contractor shall prepare the Schedule of Values which breaks down the Lump Sum Price for the various parts of the Work. The Schedule of Values shall be maintained in such a manner to provide a breakdown of the Lump Sum Price in enough detail to facilitate continued evaluation of applications for payment and progress reports. Large subcontracts shall be broken into several line items where, in the reasonable opinion of the Program Manager, such detail is necessary to properly track the progress of the Work. The proposed schedule of values shall also include separate line items for each part of the Work if so required by the Program Manager. The Contractor and the Program Manager shall meet as necessary to maintain the schedule of values for the Project in a manner acceptable to the Program Manager. No progress payments shall be made unless the then current Schedule of Values is acceptable to the Program Manager.

Further, in submitting any such bid, the Offeror shall be deemed to represent that it has satisfied itself that it can undertake the work for the state cost. Among other things, by submitting a bid, the Offeror assumes the following risks: (1) the nature of the land and subsoil unless such conditions constitute a Differing Site Condition; (2) the form and nature of the site and surrounding areas; (3) details and levels of existing pipe lines, conduits, sewers, drains, cables or other existing services; (4) the quantities, nature and availability of the materials, tools, equipment and labor necessary for the completion of the work; (5) the means of access to the site and any accommodation that may be required; (6) uncertainties of weather and physical conditions at the site; and in general to have itself obtained all necessary information as to risk contingencies, climatic, hydrological and natural conditions and other circumstances which may influence or affect his performance of the work.
