

## MAY 2018 - LAUNCH PAD INITIATIVE

### LAFAYETTE ELEMENTARY SCHOOL CONSTRUCTION OF CLASSROOM CLOSE-INS

#### ADDENDUM NO. 1 - EXHIBIT B

NO.	QUESTIONS	ANSWER
1	Please provide the manufacturer, model # or spec for the doors/frame and hardware and metal windows.	See the <b>Exhibit C</b> (Door and Window Detail) Actual Manufacture will be provided upon award.
2	Is this work to be completed during normal business hours?	Yes, the school has agreed to not have students in the work zones during construction.
3	Other than moving the thermostat and light switch to accommodate the new wall is there any other HVAC work required, i.e. duct removal or install?	No
4	Is the contractor going to be responsible to moving items around in the classrooms or will the facilities staff handle that?	DCPS facilities will be responsible for removal of all class-room furniture and or items.
5	Please provide the spec and color of paint types used for this project.	DGS will be provide upon award.
6	The wage scale for this project is for Alabama not Washington DC. Is this the correct one to be used or are we supposed to establish our own rates to go by?	Please see Addendum No. 1, Item No. 4
7	Is this project set aside for SBE or can CBE participate	The Launch Pad Initiative is set-aside for DSLBD certified SBE vendors.
8	What are the days and time that contractor can work in the school? Can we work on weekends and after 5:00 p.m.?	Monday through Friday, 8:00 a.m. to 4:30 p.m.
9	Are there any acoustical drywall and acoustical insulation required for these partitions?	See attached <b>Exhibit D</b> (Partition Schedule A0.04)
10	What thickness/size of metal studs would you like us to build the partitions with?	See attached <b>Exhibit D</b> (Partition Schedule A0.04)
11	Can you provide the specifications of the storefront window that would be included in the wall? Such as the manufacturer, type, thickness of glass.	See the attached <b>Exhibit C</b> (Door and Window Detail)
12	Please provide the specifications of the doors; such as manufacture, type, stain color etc. Is the door a solid wooden door including all hardware?	The Hardware is Storeroom lock with Deadbolt
13	Where do you want the doors and windows installed in relation to the new partition? (i.e. should the doors be in middle and windows installed to the right of doors).	See the attached <b>Exhibit C</b> (Door and Window Detail)
14	Do we need to obtain building permit for this work?	Not anticipated, DGS will confirm with DCRA prior to award
15	Can you provide the specifications for the electrical switches?	No electrical work is anticipated for this project.
