## **Executive Summary**

The Department of General Services (“Department” or “DGS”) is issuing this Request for Proposals to engage a construction-manager to demolish the existing building and construct a new recreation center at Marvin Gaye Recreation Center located at 6201 Banks Place, NE, Washington, DC 20019 and improvements to the existing Marvin Gaye Trail (the “Project”). The Project site is located between 61<sup>st</sup> Street, NE, Banks Place and Southern Avenue, NE. The site is bisected by the Watts Branch stream, which is a tributary to the Anacostia River. In addition, most of the site is within the 100 year flood plain as designated by FEMA. The existing recreation center includes a one story 2,000 SF field house; a lighted athletic field with a baseball diamond; two high school basketball courts and an NBA regulation size basketball court; a community garden; and a playground. The Project includes demolition of the existing one story structure and the construction of a new structure of approximately 8,000 SF to serve as the recreation center to be completed by January 2017, as well as site improvements and revitalization of the Marvin Gaye Trail to be completed in the summer of 2016. The Project must achieve a minimum of LEED Silver Certification.

The Department has selected ISTUDIO Architects (the “Architect”) to serve as the designer for the Project, and the proposed site plan, as well as an aerial map of the site and schematic floor plan and elevations, are attached hereto as **Attachment A**. The proposed building is located on the south bank of the stream and raised on a plinth above the flood plain to meet FEMA regulations. It is anticipated that the new Recreation Center will include a large community room, multi-purpose room, game/teen room, media and reading room, senior room, fitness room, teaching kitchen, computer lab, toilets accessible from the outside of the building, exhibit space as a tribute to Marvin Gaye, and support spaces (toilet rooms and storage), and well as exterior site improvements. With respect to the Marvin Gaye Trail, which is approximately two (2) miles and is separated from the recreation center site by 61<sup>st</sup> Street, the desire is to reactivate and revitalize three (3) designated hubs along the Marvin Gaye Trail in order to link residents to the outdoors and encourage members of the surrounding community, adjacent communities and other visitors to use the trail and learn about its heritage. The proposed improvements to the trail include a community garden, decked plaza with seating, landscaping, sports and fitness zone, basketball court, paving, and various plantings.

### **A.1. Project Delivery Method**

The Department intends to implement the Project through a construction management at risk approach. The Construction Manager’s scope of work will be divided into two phases: (i) the Preconstruction Phase; and (ii) the Construction Phase.

During the Preconstruction Phase, the Construction Manager will be required to work with the Architect to advance the design in a manner consistent with the Department’s schedule, budget and programmatic and other requirements. The Construction Manager will be required to actively participate in the design process by providing cost estimating, scheduling, identifying long-lead purchasing items and performing constructability reviews. The Department envisions that the Architect will be working on design development documents for the Project at the time

the Construction Manager is engaged. The Department expects that early release packages will be developed for work associated with hazardous material abatement, selective demolition, and foundation-to-grade work and that these documents and a set of permit documents for the balance of the work will serve as the basis for the guaranteed maximum price (“GMP”). The Department expects that the Permit Set will be completed by December 23, 2015 (Recreation Center) and January 7, 2016 (Trail) at which point the Construction Manager will be required to obtain quotes from trade subcontractors and provide a GMP based on the approved Permit Set. The process by which the GMP will be formed is more fully described in the Form of Contract which will be issued by addendum. The Department expects that work related to the early release packages will be released in advance of establishment of the GMP.

The Construction Phase will commence upon execution of the GMP Contract. Concurrent with the execution of the GMP Contract, the Department will assign its agreement with the Architect to the Construction Manager, and from and after that point, the Construction Manager will be required to complete the design and to construct the Project for an amount that does not exceed the GMP no later than the Substantial Completion Date.

## **A.2 Form of Contract**

The Form of Contract will be issued by Addendum to this RFP. Offerors should carefully review the Form of Contract when submitting their proposal. To the extent there are any inconsistencies between this RFP and the Form of Contract, the Form of Contract shall prevail. Offerors are further advised that they are required to submit their proposal premised upon entering into a contract that is substantially similar to the Form of Contract and that any proposed changes to the Form of Contract must be clearly identified and described in their proposal. **A proposal that fails to specifically identify and describe the requested changes shall be deemed non-responsive.**

## **A.3 Construction Manager Fees**

As will be more fully described in the Form of Contract, this will be a cost plus a fixed fee with Guaranteed Maximum Price type contract. Offerors will be required to submit with their proposal the following: (i) a Preconstruction Fee; (ii) a Construction Management Fee; (iii) a General Conditions Budget; and (iv) a Design Fee. The Preconstruction Fee and Construction Management Fee will be fixed fees; the cost of general conditions and Design Fee, as defined in the Form of Contract, shall be reimbursable subject to a cap equal to the General Conditions Budget and Design Fee bid by the Offeror. The Design Fee should only include those design costs after assignment of the Architect’s contract has occurred (i.e. any design costs beyond the Permit Set). Insurance and bonds will be reimbursable at cost and without mark-up. Offerors will be required to submit with their proposal an Offer Letter in substantially the form of **Attachment B** on the Offeror’s letterhead.

It is the Department’s intent to engage the Construction Manager to advance the design and to put into place work in an amount equal to the Project Budget from March 2016 to January 24, 2017 (Recreation Center) and July 22, 2016 (Trail). The Construction Manager shall not be

entitled to any additional fees unless (i) the Department makes additions to the scope provided for in the GMP Contract which cause the GMP to increase by more than ten percent (10%); or (ii) the Department makes additions to the scope provided for in the GMP Contract which will require the Construction Manager's services to extend beyond March 1, 2017. Please note, however, that punchlist activities may extend beyond the Substantial Completion Date and that such activities will not entitle the Construction Manager to additional fees or general conditions.

#### **A.4 Incentives for On-time; On-Budget Completion & Meeting Workforce Goals**

In the event the Project is both (i) Substantially Complete no later than January 24, 2017 (Recreation Center) and July 22, 2016 (Trail); and (ii) delivered for an amount that does not exceed the GMP, the Construction Manager will be entitled to incentive fee in the amount of Ten Percent (10%) of the Construction Management Fee bid. If both of these goals (i.e. if the Project is late or over budget) are not, for any reason, met, the Construction Manager will only be entitled to Ninety Percent (90%) of the Construction Management Fee bid. In determining entitlement to these fees, the decision shall be made irrespective of fault and regardless of which party was responsible for the objectives not being met. The Form of Contract will provide more details on these provisions. This Project will be included in the Workforce Incentive Program, and the Construction Management Fee will be increased by Five Percent (5%) if the Workforce Utilization Requirement is met.

#### **A.5 Economic Inclusion**

The Department requires that Local, Small and Disadvantaged Business Enterprises ("LSDBEs") participate in this project to the greatest extent possible and desires that such businesses perform at least Fifty Percent (50%) of the Contract Work under this procurement. Thirty Five Percent (35%) of the Contract Work must be awarded to entities that are certified as Small Business Enterprises by the District of Columbia Department of Small and Local Business Development, and Twenty Percent (20%) of the Contract Work to entities that are certified as Disadvantaged Business Enterprises. The Department will also require that the selected Construction Manager and all of its subconsultants, subcontractors, and suppliers, enter into a First Source Employment Agreement with the Department of Employment Services. Please see **Part C** of this RFP for additional information.

In addition to LSDBE participation as described above, the Department requires that District residents participate in the Project to the greatest extent possible. Prior to the Construction Manager obtaining trade bids for the work, the Department will establish a minimum requirement for the percentage of labor hours worked by District residents on the project (such requirement, the "Workforce Utilization Requirement"). The Workforce Utilization Requirement will be no less than forty percent (40%). Offerors shall submit with their proposals a Workforce Utilization Plan outlining how they intend to increase participation by DC residents in the performance of the work on this Project.

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

#### Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than "SU" or "UAVG" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

#### Survey Rate Identifiers

Classifications listed under the "SU" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

#### Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the

classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

#### WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- \* an existing published wage determination
- \* a survey underlying a wage determination
- \* a Wage and Hour Division letter setting forth a position on a wage determination matter
- \* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations  
Wage and Hour Division  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an

interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board  
U.S. Department of Labor  
200 Constitution Avenue, N.W.  
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

**Certification Letter for Cashier's Check or Irrevocable Letter of Credit**

Offerors who submit a cashier's check or an irrevocable letter of credit ("Alternate Bid Security") in lieu of a bid bond must also submit this certification, properly notarized, with their proposal. By executing this document, Offeror acknowledges that, if awarded this contract, Offeror shall be required to post promptly a payment and performance bond equal to the full value of the contract. In the event Offeror fails to post such payment and performance bond, the Offeror understands and agrees that: (i) the Department shall draw upon the Alternate Bid Security as liquidated damages; (ii) the award and/or contract shall be terminated; (iii) for a period of two (2) years thereafter, the Department will not accept from such Offeror Alternate Bid Security in lieu of a bid bond; and (iv) the Offeror hereby waives the right to protest the termination of any such award or contract. The Offeror further acknowledges and agrees that the damages the Department would experience in the event such award or contract are terminated due to the Offeror's failure to post a payment and performance bond are difficult to determine and that the value of the Alternate Bid Security represents a reasonable estimate of the damages the Department would incur.
