

## Petitioners in Support of Kalorama Park Renovations

**We, the undersigned, urge you to respect the processes our community has followed and allow the restoration of Kalorama Park to continue.**

In July of 2013, our community asked DPR/DGS to finish an erosion and remediation project in the Park. We asked that permeable pavement be considered to bring our Park in line with environmental standards. We later asked that the area in front of the Rec Center be made more vital, since this area is barren and neglected. We asked the that City provide new playgrounds, since ours are in disrepair.

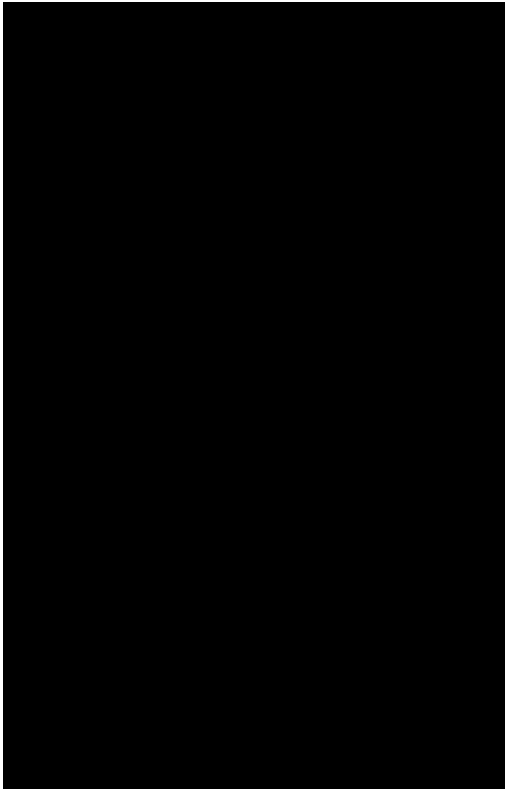

The City agreed and conducted a series of six public meetings. They solicited input through public meetings, emails, and surveys. They adjusted their plans based on community input. They posted everything online.

Later they presented the plans to the local ANC-1C. The local ANC-1C approved the plans.

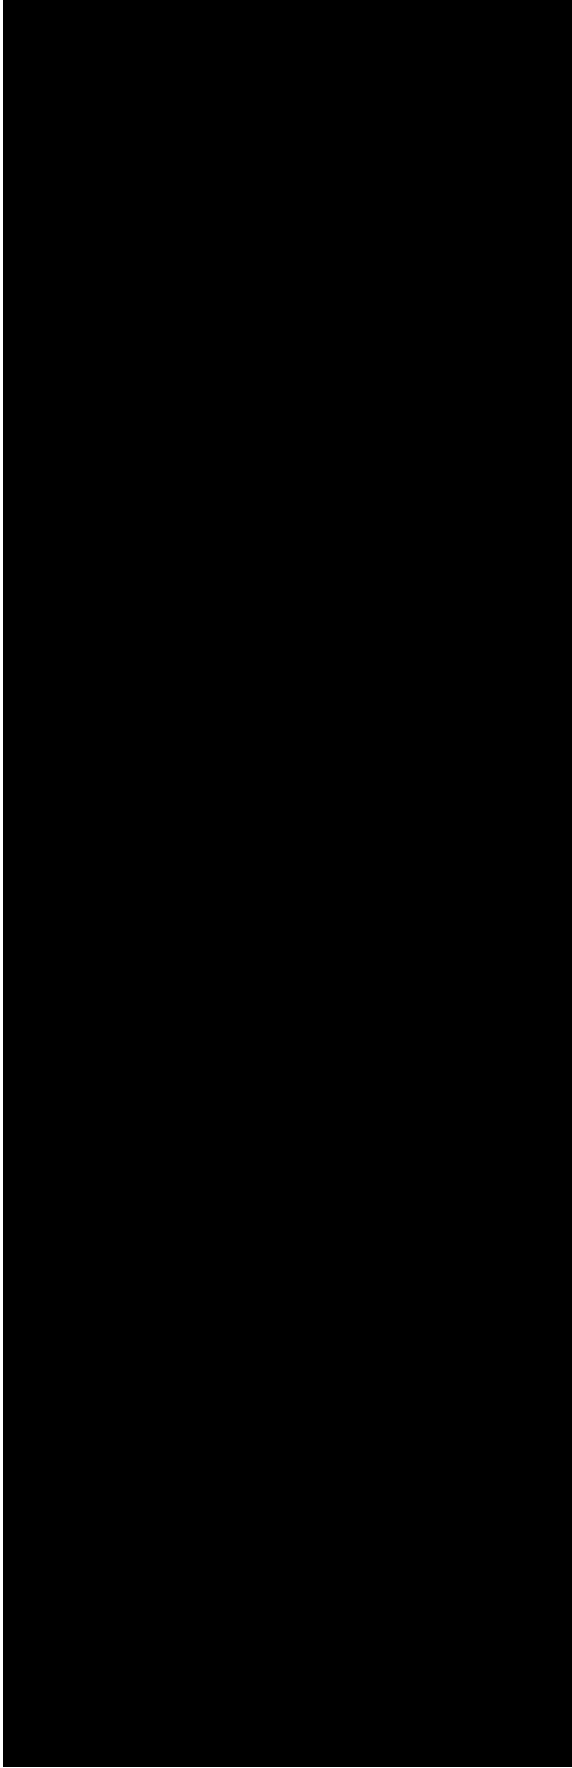

They presented the plans to the Historic Preservation Review Board. The HPRB approved the plans.

This has been a fair, transparent and open process. The actions of a vocal minority should not replace the fair and full process our community has already undertaken.

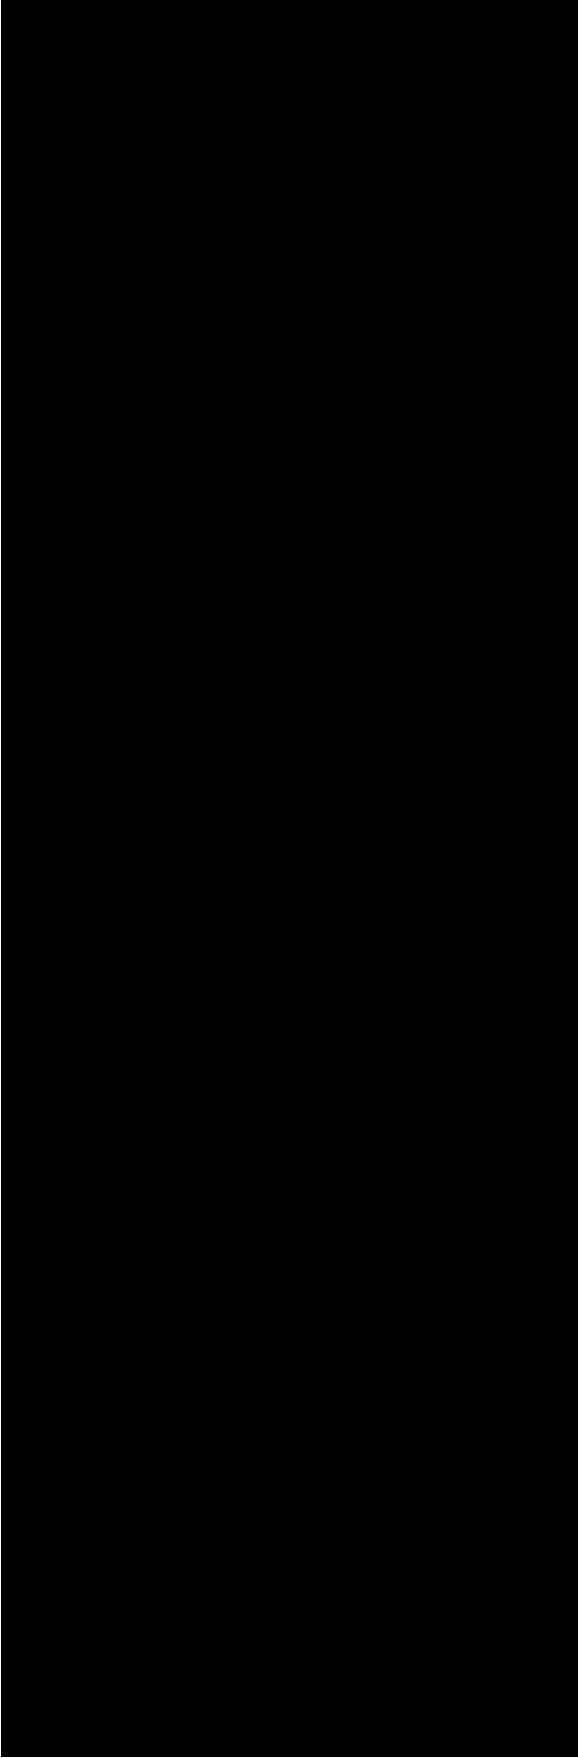

We ask that the decisions of the majority be respected and that the restoration of Kalorama Park continue as soon as possible.
