Executive Summary

The District of Columbia Department of General Services (“DGS” or the “Department”) is issuing this Request for Proposals to engage a contractor to provide construction services for the restoration of the athletic field at Taft Recreation Center (the “Athletic Field”). The Athletic Field is located at 20th Street and Otis Street, NE, Washington, DC, 20018. In general, the work at the Athletic Field includes performing soil testing; performing a geotechnical study and report; re-sodding the Athletic Field; fertilizing and maintaining the Athletic Field; resurfacing the existing basketball courts; replacing the athletic lighting system; and furnishing and installing miscellaneous site amenities (the “Project”). The Contractor’s work must be completed in conformance with the Narrative Scope of Work included with Attachment A. Attachment A also includes the basis of the design and the specifications for the new lighting system and DPR standard site amenities (together, with the Narrative Scope of Work, the “Basis of Design Documents”).

Through this solicitation, the Department seeks to engage a contractor to complete the Project in accordance with the Basis of Design Documents no later than March 31, 2015, at which point the Department will assess the Athletic Field and grant preliminary acceptance if the work is properly completed. The Contractor shall maintain the Athletic Field for six (6) months following preliminary acceptance by DGS and the Department shall assess the Athletic Field three (3) months after date of completion of sod installation. During this period, the Contractor will be required to timely correct any work that is found to be not in accordance with the Basis of Design Documents.

As part of the Department’s Small Business Initiative, this solicitation is being set aside for bidding only by Offerors that are certified by the District of Columbia Department of Small and Local Business Development as Small Business Enterprises.

A.1 Design Assist

The selected Contractor will be required to complete the Work on a “design assist” basis and shall be responsible for completing any design (e.g., shop drawings, submittals, etc.) as necessary to detail the work, in accordance with the Basis of Design Documents; obtaining the required permits; and installing all of the work necessary to complete the Project. The Contractor’s work will be divided into two phases: (i) the Preconstruction/Design Phase, and (ii) the Construction Phase. During the Preconstruction/Design Phase the Contractor shall prepare such shop drawings or other submittals as may be required to describe the work and to obtain the necessary permits (“Design Documents”). Such Design Documents shall be submitted to the Department for its review and approval prior to proceeding with construction. During the Construction Phase, the Contractor will implement the approved Design Documents, providing all labor, materials, supervision and other services as may be necessary to accomplish this task.

A.2 Form of Contract
The Form of Contract will be issued by addendum. Offerors should carefully review the Form of Contract when submitting their proposal. To the extent there are any inconsistencies between this RFP and the Form of Contract, the Form of Contract shall prevail. Offerors are further advised that they are required to submit their proposal premised upon entering into a contract that is substantially similar to the Form of Contract and that any proposed changes to the Form of Contract must be clearly identified and described in their proposal. **A proposal that fails to specifically identify and describe the requested changes shall be deemed non-responsive.**

### A.3 Lump Sum Price

As will be more fully described in the Form of Contract, this will be a Lump Sum type contract. Offerors will be required to submit with their proposal a Lump Sum Price for the work. The Lump Sum Price shall include sufficient funds to cover all of the expenses necessary to complete the Project, including, but not limited to, profit, home and field office overhead, supervision, labor, materials, equipment, bonds, insurance, design, and other services that may be required to obtain the necessary permits, and construct the work. The Lump Sum Price should also include sufficient funding to fund items that are not specifically identified on the Narrative Scope of Work but which are reasonably inferable therefrom. Offerors will be required to submit with their proposal an Offer Letter in substantially the form of **Attachment B** on the Offeror’s letterhead setting forth its Lump Sum Price. Offerors should price the following scope items as add/alternates:

1. Repave walking track around new athletic field (see **Attachment A** for location)
2. Remove and replace two (2) existing outdoor drinking fountains (see included basis of design for water fountain type, existing water service to water fountains to remain)
3. Install 5’ height fence around athletic field (see **Attachment A** for location, see included fence specification for requirements).

The Department has established an allowance of Twenty Thousand Dollars ($20,000) for additional work outside of the Narrative Scope of Work. Work included in this allowance will be authorized at the written direction of the Department. Offerors should include such allowance in their Lump Sum Price.

Bidders may substitute equivalent products for each product identified in **Attachment A**, even if the Basis of Design Documents reference a specific product manufacturer. Please submit the specifications of any proposed equivalent product at least seven (7) days prior to the bid date so the equivalency can be evaluated. If you do not receive approval prior to the bid date, please include the specified product in your base bid and the proposed equivalent product as an add/alternate.

Other than the original proposal (which shall include both a pricing and technical response), Offerors will be required to submit copies of the pricing portion of their proposal (including the Form of Offer Letter and any attachments thereto) separately from the technical portion of their proposal.
proposal. The technical portion of the proposal consists of everything other than pricing information.

A.4 Incentives for On-time; On-Budget Completion & Meeting Workforce Goals

In the event the Project is both (i) Substantially Complete no later than March 31, 2015, and (ii) delivered for less than the Lump Sum established in the Contract, the Lump Sum shall be increased by Two Percent (2%). If both of these goals are not met, the Lump Sum will be reduced by Two Percent (2%). In addition, if the Contractor meets the Workforce Utilization Requirement discussed in Section A.5 below, the Lump Sum will be increased by One Half of One Percent (0.5%). In determining whether these goals have been met, the decision will be made irrespective of fault and regardless of whether the cause for failing to achieve these goals was within the Contractor’s control.

A.5 Economic Inclusion

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters, PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable, i.e.,
Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

* an existing published wage determination
* a survey underlying a wage determination
* a Wage and Hour Division letter setting forth a position on a wage determination matter
* a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an
interested party (those affected by the action) can request
review and reconsideration from the Wage and Hour Administrator
(See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the
interested party's position and by any information (wage
payment data, project description, area practice material,
etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an
interested party may appeal directly to the Administrative
Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

END OF GENERAL DECISION
Attachment F

Bid Guaranty Certification
Attachment F

Certification Letter for Cashier’s Check or Irrevocable Letter of Credit

Offerors who submit a cashier’s check or an irrevocable letter of credit (‘‘Alternate Bid Security’’) in lieu of a bid bond must also submit this certification, properly notarized, with their proposal. By executing this document, Offeror acknowledges that, if awarded this contract, Offeror shall be required to post promptly a payment and performance bond equal to the full value of the contract. In the event Offeror fails to post such payment and performance bond, the Offeror understands and agrees that: (i) the Department shall draw upon the Alternate Bid Security as liquidated damages; (ii) the award and/or contract shall be terminated; (iii) for a period of two (2) years thereafter, the Department will not accept from such Offeror Alternate Bid Security in lieu of a bid bond; and (iv) the Offeror hereby waives the right to protest the termination of any such award or contract. The Offeror further acknowledges and agrees that the damages the Department would experience in the event such award or contract are terminated due to the Offeror’s failure to post a payment and performance bond are difficult to determine and that the value of the Alternate Bid Security represents a reasonable estimate of the damages the Department would incur.
